Diagnostic Reading Analysis (DRA)

SECOND EDITION

**Authors:** Mary Crumpler and Colin McCarty

A diagnostic reading assessment suitable for a lower ability range.

These tests individually assess reading accuracy, comprehension, fluency/reading rate and processing speed in less able pupils.

- An initial listening comprehension passage helps determine each pupil’s starting point
- Parallel forms available for easy retesting
- Ideal for individual assessment by SENCOs

Scorer/Profiler CD-ROMS are available to help teachers to accurately profile strengths and weaknesses, and monitor year-on-year progress with standardised score calculations. Reporting on individual and group performance is fully automated to save you time.

Mathematics Assessment for Learning and Teaching (MaLT)

**Author:** University of Manchester

MaLT provides year-on-year diagnostic tests that enable screening and progress monitoring from Reception to Year 9.

MaLT can be used at any time during the school year and has been standardised nationally to ensure secure, reliable results. Tests are available in both paper and interactive computer-adaptive formats (single-user version only).

- Highly diagnostic – provides question-level error analysis
- Written to highlight particular errors and misunderstandings that are diagnostic of key learning needs, such as counting errors and misconceptions with decimals
