

HELPING YOUR LEARNERS SUCCEED

TRIED & TESTED FEATURES

EDUCATION
& CHILDCARE

T Level

INTRODUCTION & LEARNING OUTCOMES

Introduce what will be covered in the unit and use the learning outcomes that are linked to the specification to ensure students stay on track.

CLEAR HEADINGS

Navigate the book easily with clear headings throughout.

'IN PRACTICE'

Tasks and questions that simulate working environments and test relevant knowledge.

'REFLECT'

Gives learners the opportunity to reflect on what they've learned so far.

KEY TERMS

Every section will highlight the key terms to reinforce understanding and to make sure nothing important is missed.

'TEST YOURSELF'

Invites learners to think about the topics in more detail

RESEARCH

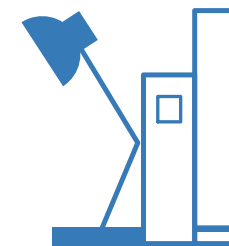

Research based activities will enable learners to go beyond the course and discover more about their placement.

'PRACTICE POINTS'

These give guidance to students to help develop their professional skills during the industry placement.

HINTS AND TIPS

Support students in their exams, employer set project and their practical assignment.

CASE STUDIES

Contextualise learning and preparing student for their placements.

'GOOD TO KNOW'

Highlights knowledge content that will be useful when completing the synoptic assignments

'ASSIGNMENT PRACTICE' & MODEL ANSWERS

These cover the employer set project with tips and mock scenarios and give examples of how candidates may approach their assignments.

'ASSESSMENT PRACTICE'

Questions similar to those learners may encounter in their exams.

'PROJECT PRACTICE'

This will support learners in the synoptic assignments in the occupational specialism section of their qualification.
