Free Subscription Support	4

Student eTextbooks are purchased as individual copies, just as you would buy print copies, and are valid for 1, 2 or 3 years. Copies are allocated to students through Dynamic Learning and accessible via the Dynamic Reader iOS iPad App or Android App. Students are able to download their copy onto two devices of their choice, and access expires from 1, 2 or 3 years from the date of allocation.

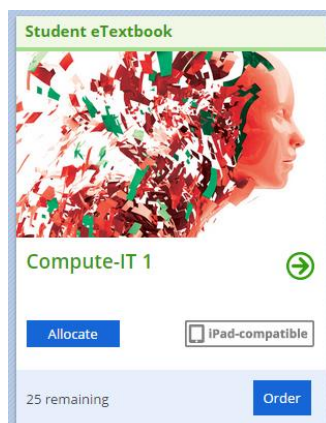

This guide will show you how you can create student accounts and allocate copies to them in 4 easy steps.

Allocating Student eTextbooks to your students

1. Log into Dynamic Learning and select your Course from the dropdown menu or left-hand navigation panel

You will see the total number of Student eTextbook copies available to allocate (this will include all 1, 2 and 3 year subscription access options)

2. Click 'Allocate'

Students and teachers who already have a copy of the Student eTextbook will appear in the 'Users with access' list on the right

Allocate access to Compute-IT 1

Show users with access to a selected title, and/or users who are members of a selected group:

Select a title ▼
All students (All student... ▼

Your centre has the following available to allocate to users. Please select what you would like to allocate, followed by the users you are allocating to, and confirm.

1 year subscription **10 remaining**

2 year subscription **10 remaining**

3 year subscription **4 remaining**

Order more

All users (Tick to allocate a user to allocate access to)

 Tick/untick all

Last name	First name	Username	Expires	
<input type="checkbox"/>	Granger	Hermione	hermionegranger	30/06/2018
<input type="checkbox"/>	Longbottom	Neville	nevillelongbott...

Create access link for students
Confirm allocation

3. Select a subscription option and who you would like to give a copy of the Student eTextbook from the 'All users' list of the left
4. Click 'Confirm allocation' on the bottom right

Please note: If you do not have access to a copy of the Student eTextbook, you must allocate one to yourself

To buy more copies, click 'Order' and you will be redirected to the product page on the Hodder Education website and automatically logged in.

Creating student accounts

The quickest way to get your students set up on Dynamic Learning is to send them a link so they can self-register. To use this option, you will need to allow 'Self-Registration' for your centre in User Manager Preferences. If you are not the User Manager for your centre, they will be listed under your 'My Account' drop down menu.

Watch ['How to: Allow Students to Self-Register'](#)

- Click 'Create access link for students' in the Allocate copies popup.
- Copy / paste the link.
- Click 'Done'

Share student access

To share access to the selected title copy the url below and email to your students. This link is valid for 28 days from now.

Students who use this link will be allocated the 2 year subscription of which there are 14 remaining. If more students register than there are available subscriptions then they will not be assigned access to the title.

O&ke=7FEA069917D5CAE8487C310F868ED072&sa=9XxtZID24ebni0HDr8VktWY2mSzbZD&mp=1

Done

b) Manual Set Up

If you are a Teacher Admin user, you could also add students individually or upload multiple student users with a CSV spreadsheet. [Find out more](#)

Reallocating Student eTextbooks copies

Student eTextbook copies cannot be unassigned once allocated, but you are able to reallocate it to a different student. The expiry date will remain unchanged.

Allocate access to Compute-IT 1

Show users with access to a selected title, and/or users who are members of a selected group:

Select a title All students (All student...)

Reallocate title

Reallocate another by selecting a user or select 'Reallocate' to confirm.

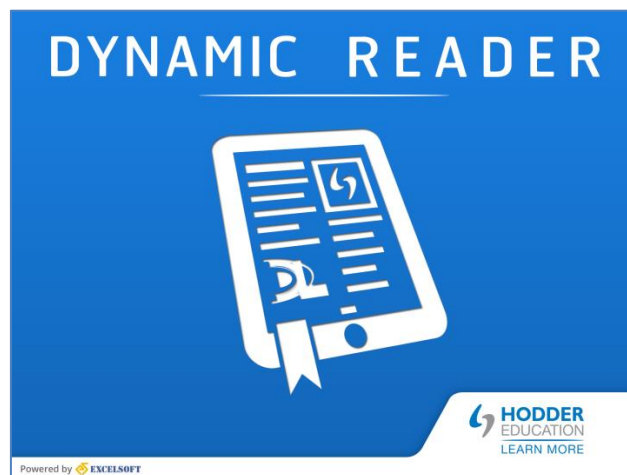

Last name	First name	Username	Expires	Last name	First name	Username	Expires

Accessing Student eTextbooks

Part of the Dynamic Learning service from Hodder Education, the Dynamic Reader App gives students the ability to access their Student eTextbooks offline on two devices.

- Download the [Dynamic Reader iOS App](#) (requires iOS 7.0 or later)
- Download the [Dynamic Reader Android App](#)

Once it is installed, tap on the icon to open the app on your device

Enter your Dynamic Learning login details

The allocated Student eTextbooks will be available to download

Free Subscription Support

We provide a whole host of free training and support services, including dedicated technical support from 9.00am to 5.30pm (GMT) Monday to Friday.
