<i>Introduction</i>	v	4.6 Indices	108
Section 1 Algebra		4.7 Algebraic proof	113
1 Number and algebra I	1	4.8 Sequences	115
1.1 Numbers and the number system	1	4.9 Limiting value of a sequence	120
1.2 Simplifying expressions	4	4.10 Simultaneous equations in three unknowns	122
1.3 Solving linear equations	8	Section 2 Geometry	
1.4 Algebra and number	11	5 Coordinate geometry	128
1.5 Expanding brackets	13	5.1 Parallel and perpendicular lines	128
1.6 The binomial expansion	16	5.2 The distance between two points	129
1.7 Manipulating surds	19	5.3 The midpoint of a line joining two points	130
1.8 The product rule for counting	24	5.4 Equation of a straight line	134
2 Algebra II	30	5.5 The intersection of two lines	137
2.1 Factorising	30	5.6 Dividing a line in a given ratio	141
2.2 Rearranging formulae	35	5.7 Equation of a circle	145
2.3 Simplifying algebraic fractions	37	6 Geometry I	157
2.4 Solving linear equations involving fractions	40	6.1 Mensuration	158
2.5 Completing the square	42	6.2 Pythagoras' theorem	158
3 Algebra III	45	6.3 Angle facts	159
3.1 Function notation	45	6.4 Circle theorems	160
3.2 Domain and range of a function	47	6.5 Geometric proof	164
3.3 Composite functions	50	6.6 Trigonometry in two dimensions	170
3.4 Graphs of functions	53	6.7 Trigonometric functions for angles of any size	179
3.5 Graphs of linear functions	54	6.8 The sine and cosine graphs	180
3.6 Finding the equation of a line	59	6.9 The tangent graph	181
3.7 Graphs of quadratic functions	65	6.10 Solution of trigonometric equations	182
3.8 Inverse functions	69	6.11 Trigonometric identities	186
3.9 Graphs of exponential functions	73	7 Geometry II	192
3.10 Graphs of functions with up to three parts to their domains	75	7.1 The area of a triangle	192
4 Algebra IV	82	7.2 The sine rule	196
4.1 Quadratic equations	82	7.3 The cosine rule	200
4.2 Simultaneous equations in two unknowns	90	7.4 Using the sine and cosine rules together	205
4.3 The factor theorem	96	7.5 Problems in three dimensions	208
4.4 Linear inequalities	102	7.6 Lines and planes in three dimensions	210
4.5 Quadratic inequalities	104		

Section 3 Calculus

8	Calculus	223
8.1	The gradient of a curve	224
8.2	Differentiation	224
8.3	Differentiation using standard results	229
8.4	Tangents and normals	234
8.5	Increasing and decreasing functions	241
8.6	The second derivative	242
8.7	Stationary points	245

Section 4 Matrices

9	Matrices	258
9.1	Multiplying matrices	259
9.2	Transformations	262
9.3	The identity matrix	264
9.4	Transformations of the unit square	265
9.5	Combining transformations	269
	<i>Key words</i>	273
	<i>Exam-style paper 1</i>	274
	<i>Exam-style paper 2</i>	277
	<i>Answers</i>	281
	<i>Index</i>	000
